

## What Clients Say about Theory of Constraints

"TOC does not replace what I have learned, instead compliments, and in some cases explains why there are problems that could not be resolved with other improvement techniques"

Tom Hayes, General Manager  
Consulting Services,  
ATS Automation Tooling Systems Inc.

## What Attendees Say about the Workshop

"I have been to a number of seminars that go in one ear and out the other. This workshop will change the way I think and work – TOMORROW MORNING"

Steve Parkhill, VP Operations,  
Maple Leaf Foods

## Applying Theory of Constraints Workshop

*In order to significantly ...*  
Improve On-Time Delivery, Decrease Lead Time and Reduce Inventory

*You must ...*  
Throw away your Forecast, Efficiency Measures and Project Milestones

To understand why and how, please join us at the following event:

Production Planning & Execution	Inventory Management, Finance & Measures and Project Management	Location
December 9, 2009	December 10, 2009	Radisson Hotel 405-20 <sup>th</sup> Street Saskatoon

**Attend Constraints Management Systems' (CMS) two day "hands-on" Applying the Theory of Constraints Workshop and learn how to significantly improve on-time delivery, decrease lead time and reduce inventory.**

**Day 1 - Production Planning & Execution** offers companies the opportunity to experience implementing the Theory of Constraints (TOC) and Lean Thinking operations solutions. This day highlights how to: uncover hidden capacity, improve due date performance and reduce inventory, by removing traditional plant efficiency measures and simplifying scheduling and execution.

**Day 2 - Inventory Management, Finance & Measures and Project Management** offers companies the opportunity to experience the TOC and Lean approach to Consumption Driven Replenishment, Throughput Accounting and Critical Chain Project Management.

**Constraints Management Systems Inc.** is a management and technology consulting firm with offices in North America, Europe and the Middle East.
